

HACCP: Hazard Analysis and Critical Control Points

The CorePig project has produced four generic HACCP-inspired management tools. HACCP is short for Hazard Analysis and Critical Control Points.

The four HACCP tools are made for

- HACCP for parasite control
- HACCP for suckling piglet mortality
- HACCP for weaning diarrhoea
- HACCP for reproduction and farrowing problems

National contact persons

Below you can find the contact persons for the HACCP tools in the respective European countries

Austria

- Christine Leeb, Tel 0043-1-47654 3267,
Christine.leeb@boku.ac.at

Denmark

- Tine Rousing, Tel.: +45 8715 6000
