

FAQ in connection to the CORE Organic Plus call

1. Q: Is it possible to build a consortium dealing with two thematic research areas?

A: No, unfortunately not

2. Q: Is there a partnering tool for finding interested partners?

A: Yes there is a partnering tool on the call submission website: <http://eracall.eu/>.

3. Q: Do I (we) have a higher chance of getting selected for funding, if I (we) don't ask for the highest amount of funds possible?

A: No, as long as you don't exceed the total amount allocated per country and topic and the total amount for a research project (1.5 mio €), only the assessment against the criteria mentioned in the guideline is deciding.

4. Q: Is the involvement of companies mandatory?

A: No

5. Q: Is the involvement of industry/companies particularly advantageous for getting funded?

A: No we don't have industry involvement as selection criteria. However, if the project as such – depending on the research & development approach – would benefit from the involvement of industry/companies– then its participation will be welcomed.

6. Q: Who are the scientific experts?

A: The identity of the experts will be treated confidentially.
